

Pcb Boards

Full range of Printed circuit boards

PCB boards that can be made in our production lines

Characteristic:

Al-bas

Application:

Power supply, Power amplifier, relay, LED, etc.

Characteristic:

8 layer blind / buried via PCB, PTFE-FR4 mixed.

Application:

Power amplifier etc.

Characteristic:

6-12 layer blind / buried via PCB, thickness 5mm.

Application:

Secondary power source etc.

Characteristic:

16 layer impedance control PC

Application:

Telecommunication, Network, Medical equipment etc.

QFP Immersion Gold with Connector

JBL SMT Multilayer PCB

JBL SMT Multilayer PCB

QFP ENIG finishing PCB

QFP BGA Gold plate finishing 14 Layers

QFP OSP Multilayer PCB

QFP Immersion Gold with Connector

Lead Free HASL Multilayer PCB

Feel free to request a quotation. If you already know all the details, specifications, please fill in our form and we will give you our best quotation within 24/48 hours.
